Lewandowski, 2011 *Helping Children Learn Mathematics* National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Mathematics Learning Study Committee, 2002-07-31 Results from national and international assessments indicate that school children in the United States are not learning mathematics well enough Many students cannot correctly apply computational algorithms to solve problems Their understanding and use of decimals and fractions are especially weak Indeed helping all children succeed in mathematics is an imperative national goal However for our youth to succeed we need to change how we're teaching this discipline *Helping Children Learn Mathematics* provides comprehensive and reliable information that will guide efforts to improve school mathematics from pre kindergarten through eighth grade The authors explain the five strands of mathematical proficiency and discuss the major changes that need to be made in mathematics instruction instructional materials assessments teacher education and the broader educational system and answers some of the frequently asked questions when it comes to mathematics instruction The book concludes by providing recommended actions for parents and caregivers teachers administrators and policy makers stressing the importance that everyone work together to ensure a mathematically literate society Between Husbands and Wives Mary Anne Fitzpatrick, 1988-06 These are valuable research results for people working with married couples Fitzpatrick's work offers benefits to those trying to understand more about marital communication The fact that it has a clear theoretical sense that it builds on a very large data set that it is supported by a consistent research agenda and that it welcomes new validation make it an important tool for further research **What Video Games Have to Teach Us About Learning and Literacy. Second Edition** James Paul Gee, 2014-12-02 Cognitive Development in a Digital Age James Paul Gee begins his classic book with I want to talk about video games yes even violent video games and say some positive things about them With this simple but explosive statement one of America's most well respected educators looks seriously at the good that can come from playing video games This revised edition expands beyond mere gaming introducing readers to fresh perspectives based on games like World of Warcraft and Half Life 2 It delves deeper into cognitive development discussing how video games can shape our understanding of the world An undisputed must read for those interested in the intersection of education technology and pop culture *What Video Games Have to Teach Us About Learning and Literacy* challenges traditional norms examines the

educational potential of video games and opens up a discussion on the far reaching impacts of this ubiquitous aspect of modern life

A Secure Base John Bowlby, 2012-11-12 As Bowlby himself points out in his introduction to this seminal childcare book to be a successful parent means a lot of very hard work Giving time and attention to children means sacrificing other interests and activities but for many people today these are unwelcome truths Bowlby's work showed that the early interactions between infant and caregiver have a profound impact on an infant's social emotional and intellectual growth Controversial yet powerfully influential to this day this classic collection of Bowlby's lectures offers important guidelines for child rearing based on the crucial role of early relationships

Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics when done right can help us solve the thorniest social and political problems of our day Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time Much greater than space travel or perhaps even the next revolutionary medical breakthrough what is at stake is the whole idea of the good life as we have known it Immigration and inequality globalization and technological disruption slowing growth and accelerating climate change these are sources of great anxiety across the world from New Delhi and Dakar to Paris and Washington DC The resources to address these challenges are there what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us If we succeed history will remember our era with gratitude if we fail the potential losses are incalculable In this revolutionary book renowned MIT economists Abhijit V Banerjee and Esther Duflo take on this challenge building on cutting edge research in economics explained with lucidity and grace Original provocative and urgent Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and respect It is an extraordinary achievement one that shines a light to help us appreciate and understand our precariously balanced world

Intimate Relationships Sharon S. Brehm, 1985

The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today what is it why is it important how can you teach it across a wide range of curriculum areas and grade levels and does it work Rather than focusing on how to teach media literacy Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas

The Spell of the Sensuous David Abram,2012-10-17 Winner of the International Lannan Literary Award for Nonfiction Animal tracks word magic the speech of stones the power of letters and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us This major work of ecological philosophy startles the senses out of habitual ways of perception For a thousand generations human beings viewed themselves as part of the wider community of nature and they carried on active relationships not only with other people with other animals plants and natural objects including mountains rivers winds and weather patters that we have only lately come to think of as inanimate How then did humans come to sever their ancient reciprocity with the natural

world What will it take for us to recover a sustaining relation with the breathing earth In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau Ponty Balinese shamanism Apache storytelling and his own experience as an accomplished sleight of hand of magician to reveal the subtle dependence of human cognition on the natural environment He explores the character of perception and excavates the sensual foundations of language which even at its most abstract echoes the calls and cries of the earth On every page of this lyrical work Abram weaves his arguments with a passion a precision and an intellectual daring that recall such writers as Loren Eiseley Annie Dillard and Barry Lopez

Blink Malcolm Gladwell, 2007-04-03 From the 1 bestselling author of *The Bomber Mafia* the landmark book that has revolutionized the way we understand leadership and decision making In his breakthrough bestseller *The Tipping Point* Malcolm Gladwell redefined how we understand the world around us Now in *Blink* he revolutionizes the way we understand the world within *Blink* is a book about how we think without thinking about choices that seem to be made in an instant in the blink of an eye that actually aren't as simple as they seem Why are some people brilliant decision makers while others are consistently inept Why do some people follow their instincts and win while others end up stumbling into error How do our brains really work in the office in the classroom in the kitchen and in the bedroom And why are the best decisions often those that are impossible to explain to others In *Blink* we meet the psychologist who has learned to predict whether a marriage will last based on a few minutes of observing a couple the tennis coach who knows when a player will double fault before the racket even makes contact with the ball the antiquities experts who recognize a fake at a glance Here too are great failures of blink the election of Warren Harding New Coke and the shooting of Amadou Diallo by police *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating but those who have perfected the art of thin slicing filtering the very few factors that matter from an overwhelming number of variables **The**

2030 Spike Colin Mason, 2013-06-17 The clock is relentlessly ticking Our world teeters on a knife edge between a peaceful and prosperous future for all and a dark winter of death and destruction that threatens to smother the light of civilization Within 30 years in the 2030 decade six powerful drivers will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age Depleted fuel supplies massive population growth poverty global climate change famine growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences In the face of both doomsaying and denial over the state of our world Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is and our possible futures Ultimately his message is clear we must act decisively collectively and immediately to alter the trajectory of humanity away from catastrophe Offering over 100 priorities for immediate action *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization This book is powerful and essential reading
